RIDS THE SYSTEM

Catarrh comes as a result of impurities and morbid matter in the irculation, and is a disease that only attacks mucous membrane. The entire inner portion of the body is lined with a delicate skin or covering of soft, sensitive flesh. Thousands of tiny blood vessels are interlaced throughout this mucous surface, and it is through these that the inner membrane receives its nourishment and is kept in healthful condition. When, however, the blood becomes infected with catarrhal impurities the tissues become diseased and Catarrh gets a foothold in the system. The early stages of Catarrh are characterized by such symptoms as a tight early stages of Catarrh are characterized by such symptoms as a tight stuffy feeling in the head, watery eyes, buzzing noises in the ears, with partial deafness and often difficult breathing and chronic hoarseness. These are merely symptoms, and while sprays, inhalations and other local treatment may temporarily relieve them, Catarrh cannot be cured until the blood is purified of the exciting cause. S.S.S. cures Catarrh by cleansing the blood of all impure catarrhal matter. It goes down into the circulation of the catarrhal matter. tion and attacks the disease at its head, and removes every particle of the catarrhal impurity. Then the mucous linings are all supplied with fresh, pure blood, and allowed to heal, instead of being kept in a constant state of irritation by the catarrhal matter.
